

SHOPFITTINGS ELEMENTS

We are able to digitally print many elements that are unique to a specific project. By direct printing onto a vast number of substrates, we can provide cost effective solutions by reducing the number of companies involved in the project.

Above - Wall and ceiling panels printed onto white PVC Foamboard for Bambi & Bear hairdressing salon. Photo courtesy of Andi Carnell

Left - Vector graphic printed onto MDF wall panels and hardboard door. KFC - Warner

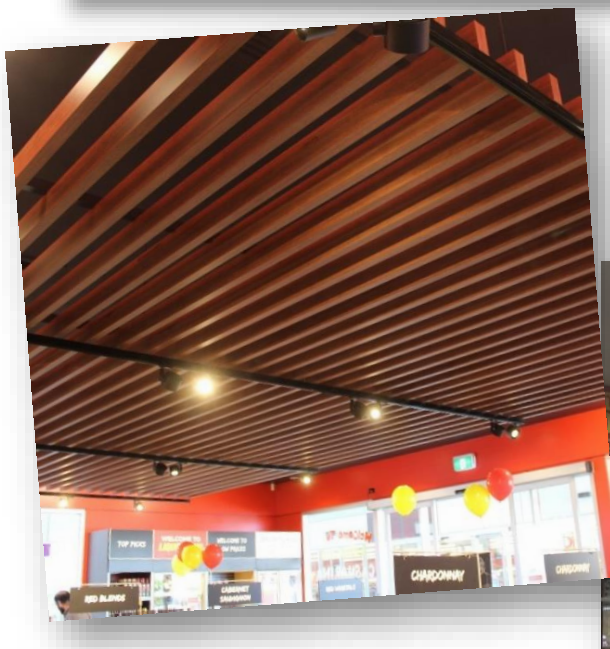

Below - Tree images printed onto Poly-Carbonate sheeting. Goondiwindi Library QLD

Above – Grey Ironbark timber printed onto MDF made into box beams to conceal steel girders

Left – Balsa/MDF beams printed in Spotted Gum for Liquorland store at Casuarina NSW.

Above - Angus & Coote stores Copper pattern reverse printed on 6mm Acrylic panels

Left – Large Balsa core door printed with textured woodgrain for Sunny Queen eggs head office. Carole Park QLD
